## EXCELLENCE POWDERS

### CHARACTERISTICS

- Bubble-free
- Non-yellowing
- Amazing color clarity

### STEP BY STEP

1. Clean your and your client's hands.
2. Push back the cuticles.
3. Remove the shine of the natural nail using a 180-grit file and remove dust with a nail brush.
4. Use Nail Scrub (D3000) to clean the nail.
5. Apply the nail form.
6. Using Milky White or Soft White Excellence Powder, place the ball on the form of the free edge. Spread the product by pushing with the belly of the brush so that the product is spread evenly from side to side.
7. Place a ball of Light Pink, Pink or Pink Extension Excellence Powder in the middle of the nail bed. With the tip of the brush, push the product into the cuticle area. At the same time, with the belly of the brush pull the pink towards the smile line.
8. File the nail in shape.
9. Buff the nail with the Shine Buffer or apply our Superior Gloss (3611) or Super Gloss (3610) for a long-lasting shine and cure it under a UV-lamp.
