

NAIL
CREATION
CATALOGUE

Welcome

This catalogue contains the most complete product range available, featuring the very latest developments and trends in nail styling and nail art. Nail Creation offers not only the highest quality products on the market, but also allows you to take advantage of more than 30 years of knowledge and experience at the highest level in the nail industry.

Nail Creation was established in 1993 by Armand Hoes, the first to introduce acrylic nails to Europe. Nail Creation has since grown to be an international organization with its own factory for producing nail products and with worldwide exports to many countries. The foundation of our success lies in the impeccably high quality of all products and the high service level and assistance offered to our customers.

Nail Creation not only sells nail products, but also offers guidance to its customers by means of a complete concept that ensures success in any salon.

Choosing Nail Creation means choosing a successful future with exceptional support and guidance. With our help, you can make your passion and dream a reality.

Kind regards,

Armand Hoes

Acrylic SYSTEM

Don't settle for less. Choose the Acrylics series from Nail Creation. Special additives incorporated into the product allow you to create flexible nails, and don't produce air bubbles. Product with medium setting time. This system is perfect for nail stylists who accept nothing less than perfection.

FST Liquid

Using FST Liquid is ideal for clients who suffer from 'lifting' of the artificial nail. This liquid does not harm the natural nail and assimilates fast and easy. FST Liquid is very economical and thus it saves time and money. Contains color stabilizers and a UV filter. Using a primer is optional. Extra benefit is that the odour is less than regular liquids.

A4013 - 500 ml

A4014 - 1000 ml

SLW Liquid

No more rushing! Create the perfect nail with this new slow setting liquid. As there is more time to process, it is easy to work with. Perfect for beginners and schools, but comfortable for all levels. Slow liquid had perfect adhesion and is non yellowing. The new liquid can be used with both Platinum Powders and Excellence Powders.

Gel system

Tix-O Gel

TIX-O is our most Thixotropic gel. It is a builder gel with solid consistency that becomes smooth and light when applied on the nail. When the design is complete, the gel returns to a solid state. TIX-O gel is not runny and automatically smoothes before curing. This will make the work of each nail technician so much easier. There is no need to stress: just create the ideal shape. Finished? Save time by curing all nails at once.
